

3:1 surrounding

2.5:1 slope

3' drop to center

5:1 slope

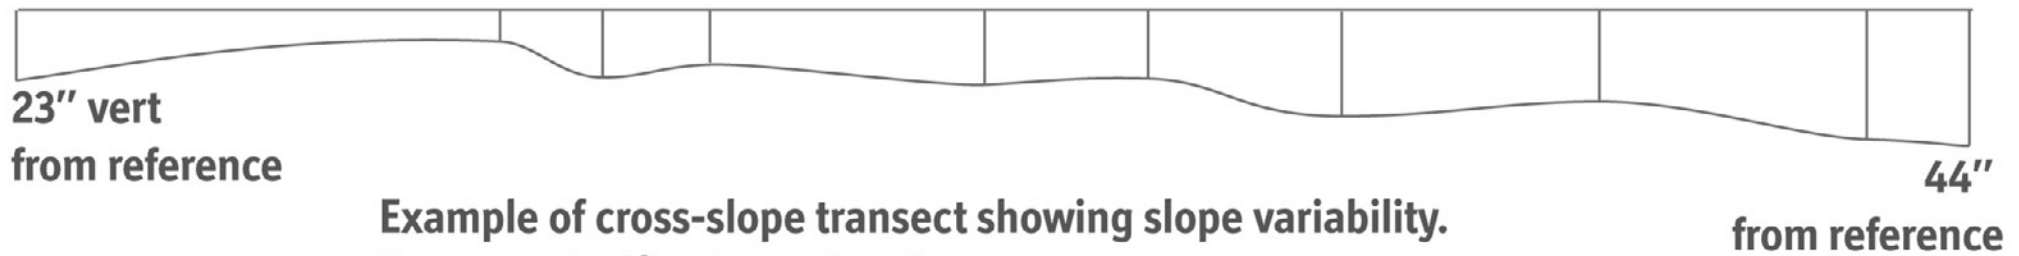

40' circumference

Example of a local gentled slope/depression - no reverse grades

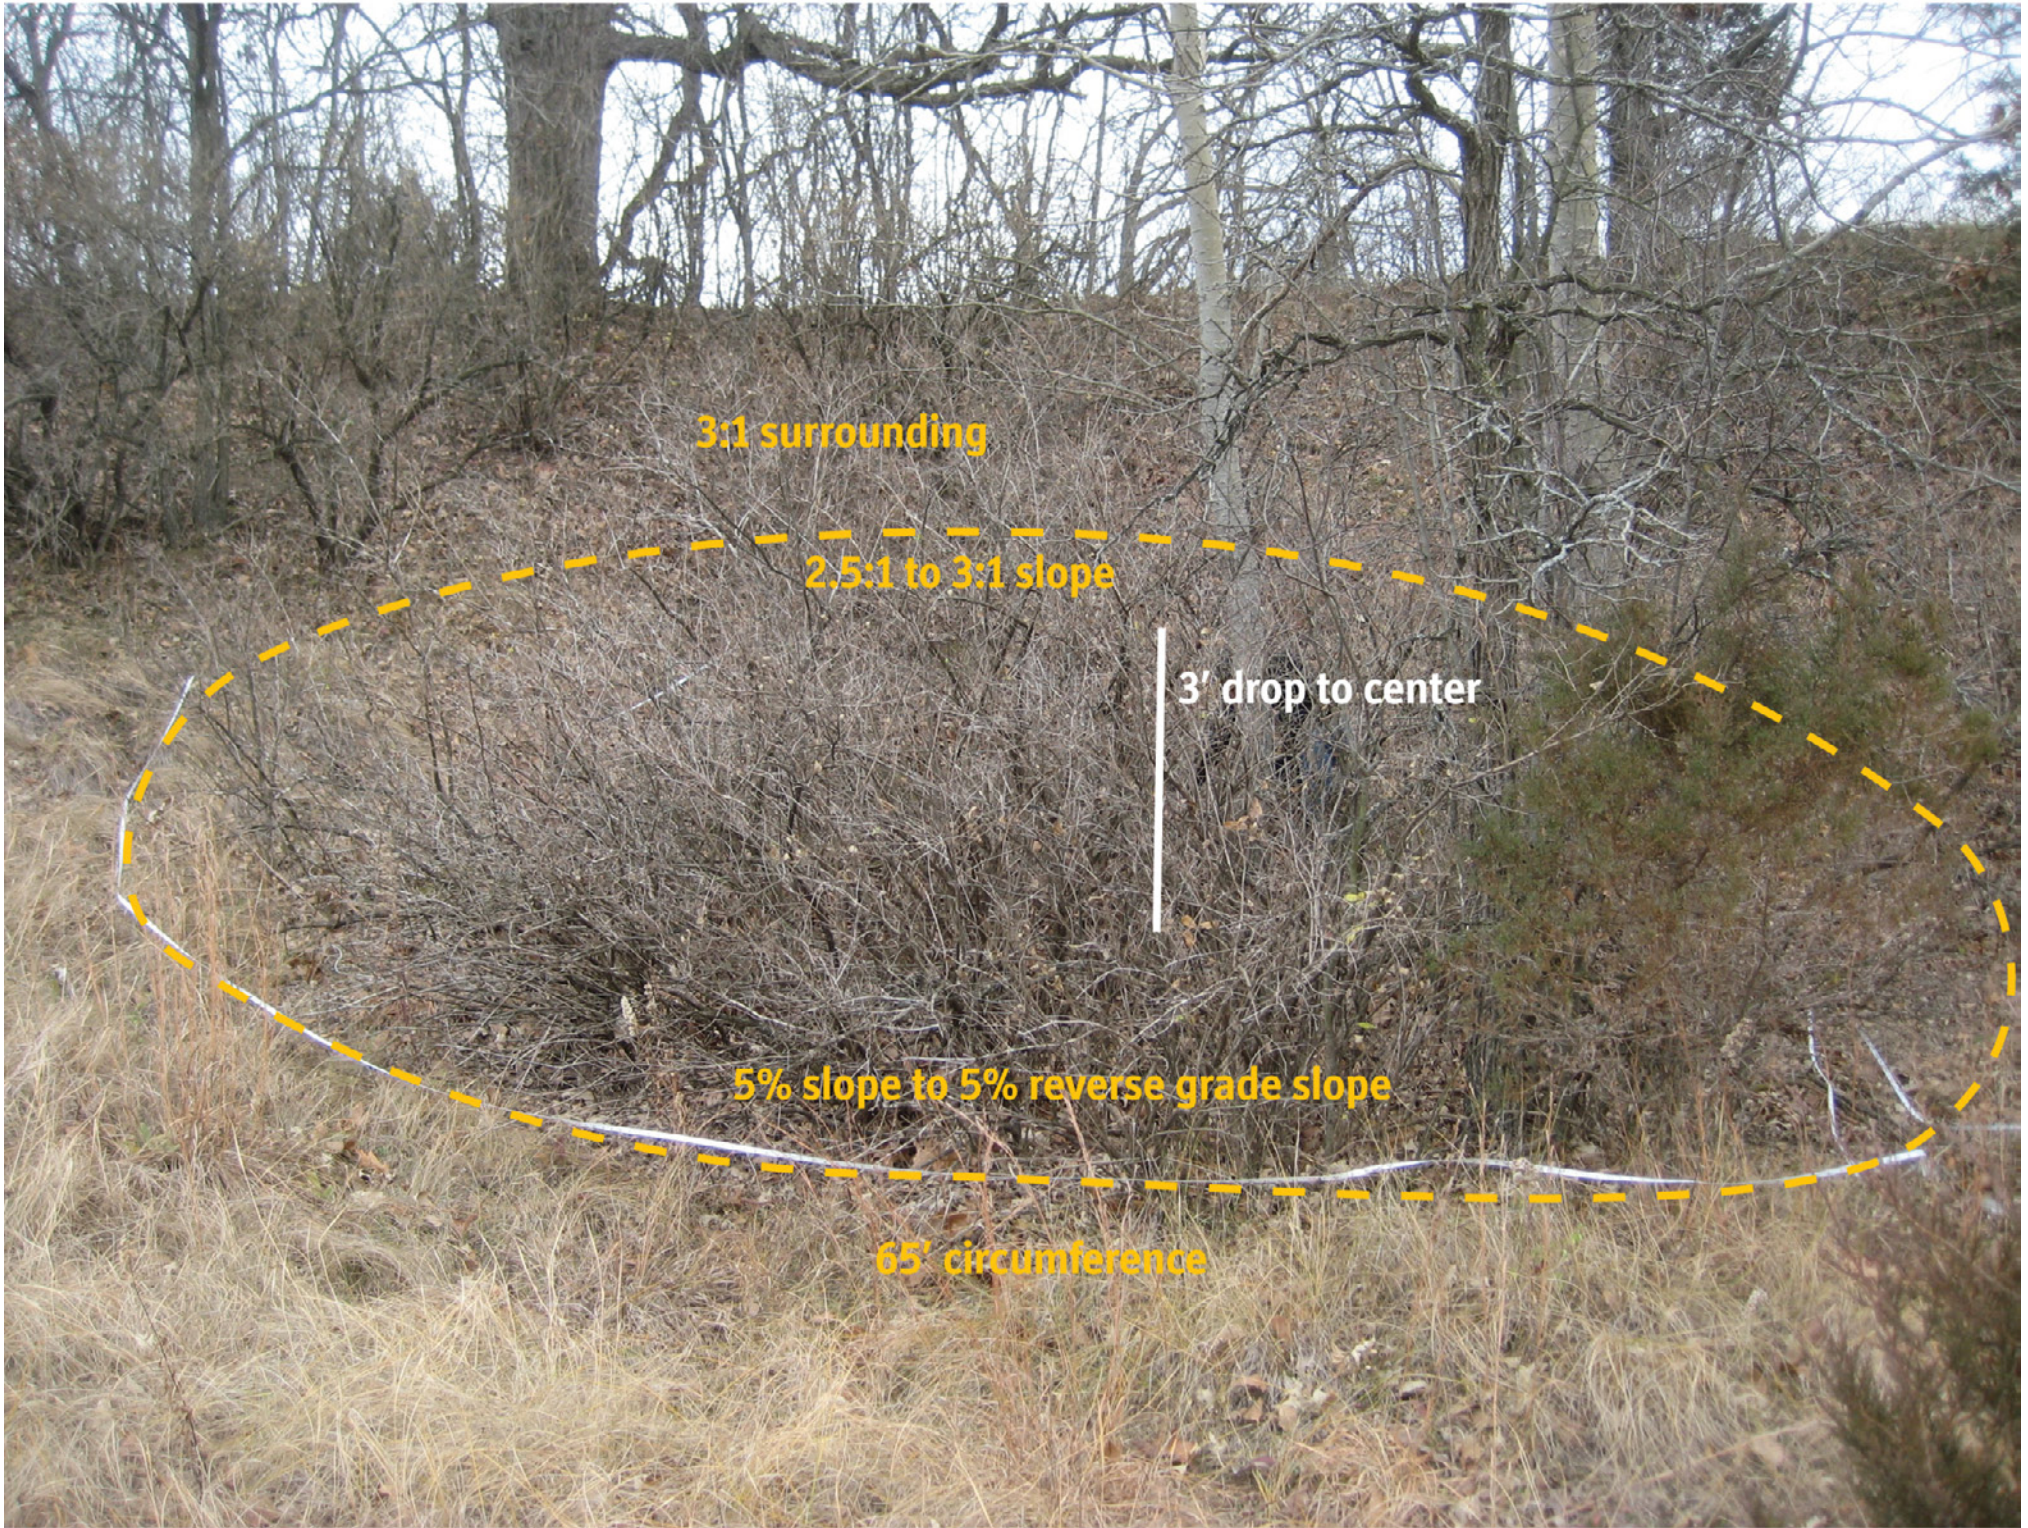

(photo shows right portion  
of transect)

53' horizontal

Example of cross-slope transect showing slope variability.  
Same vertical/horizontal scale.

3:1 surrounding

2.5:1 to 3:1 slope

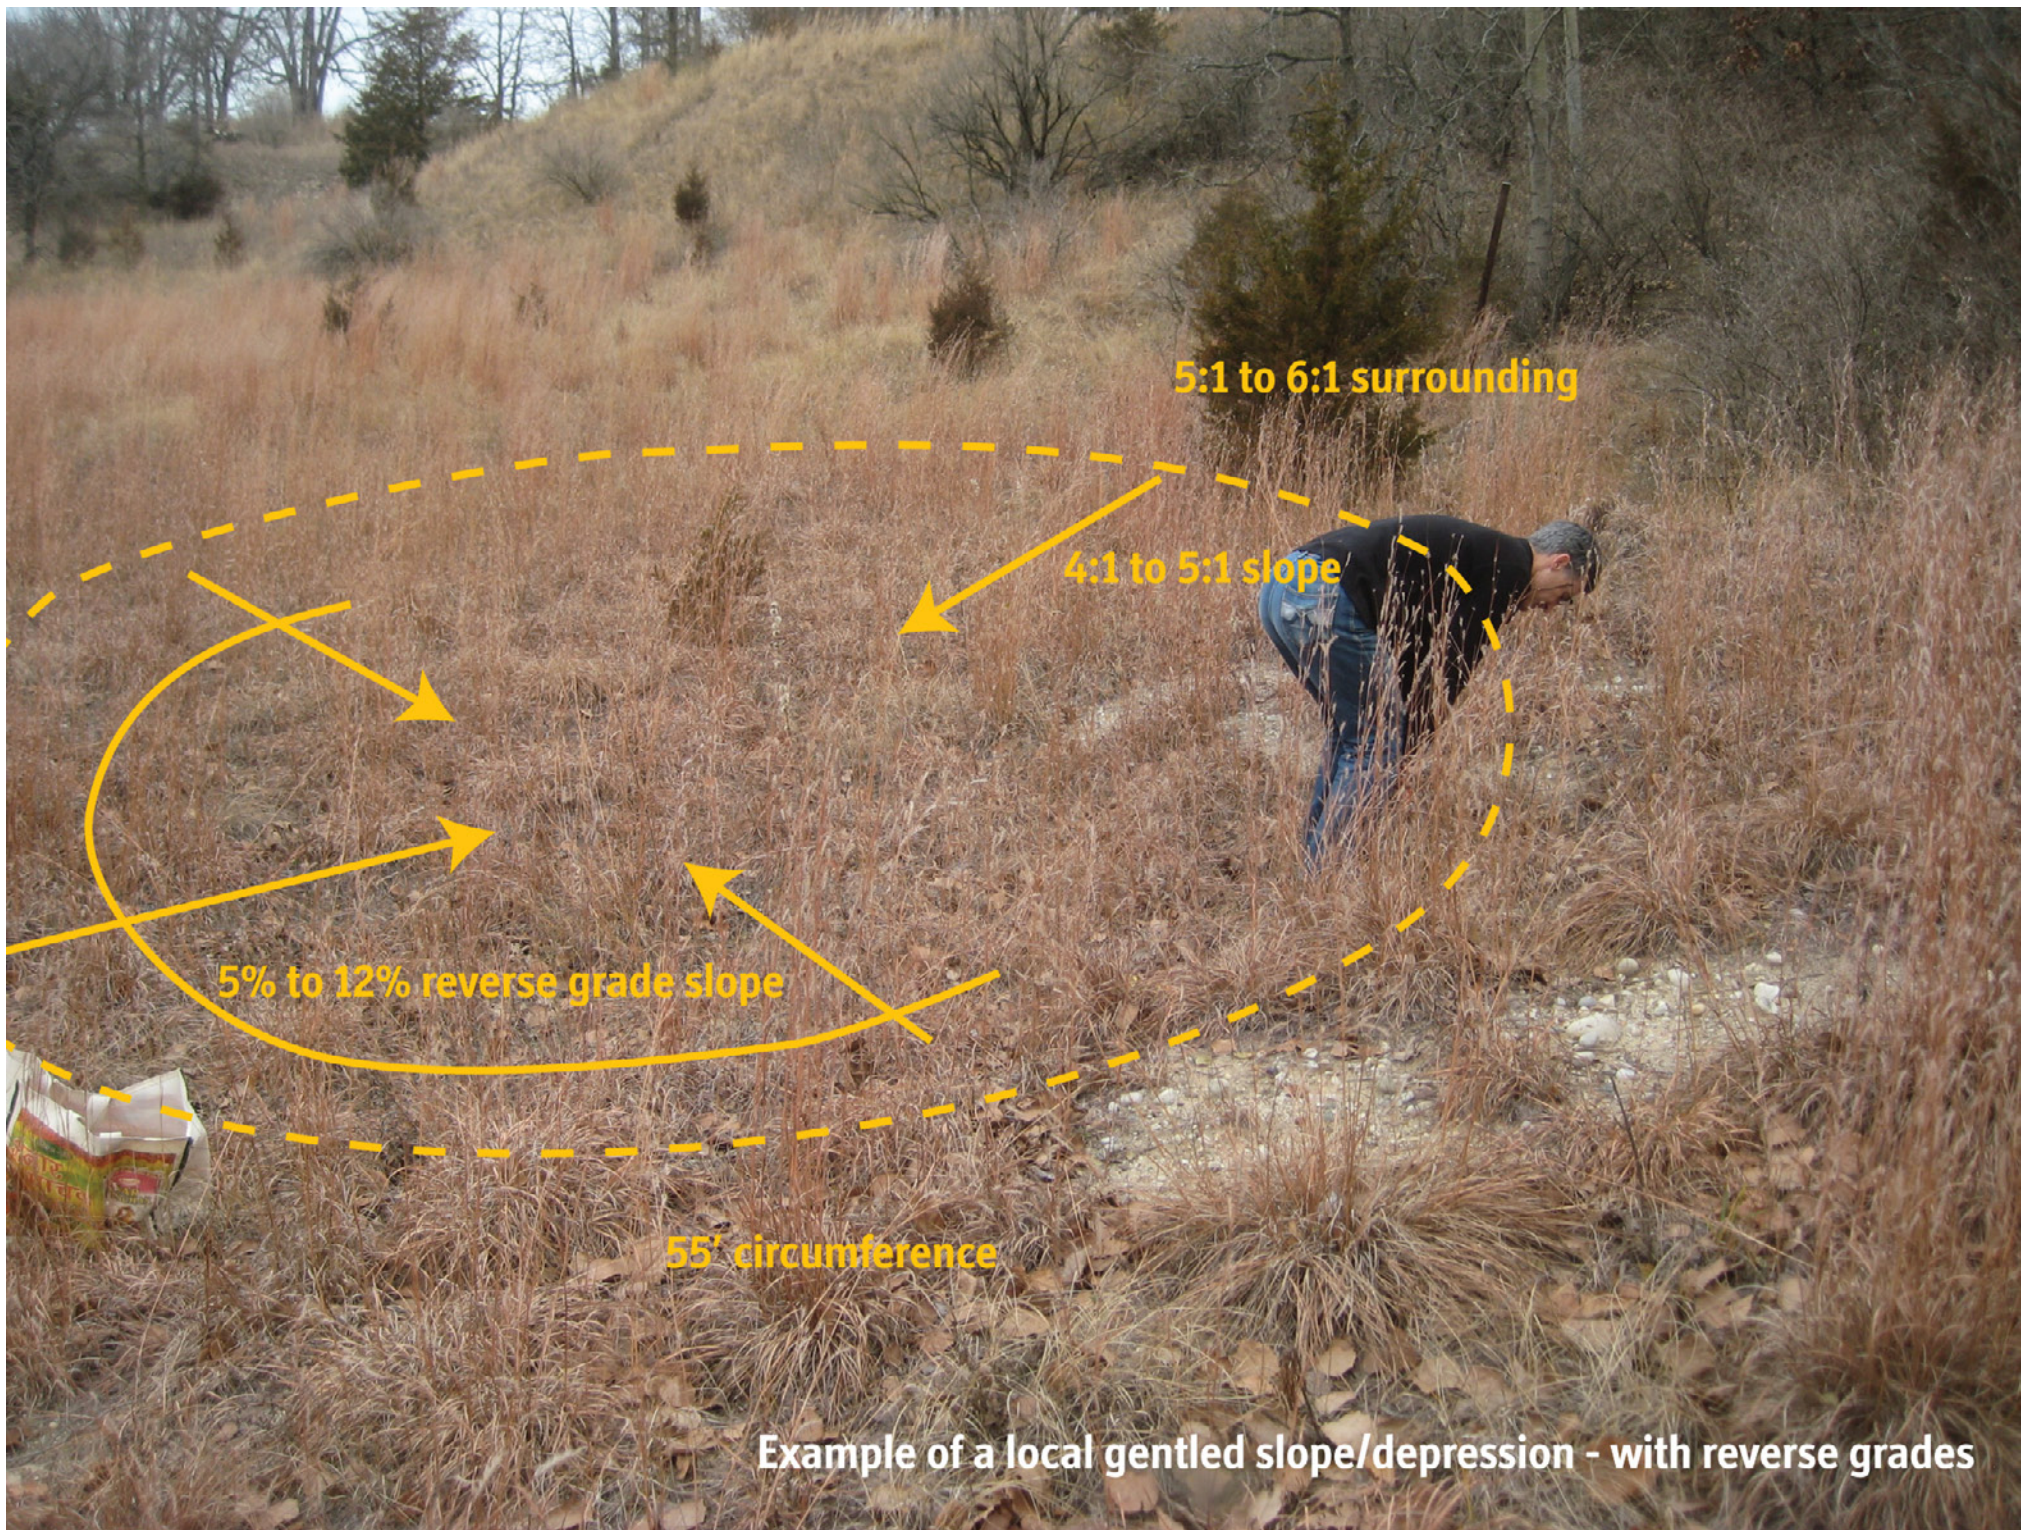

3' drop to center

5% slope to 5% reverse grade slope

65' circumference

typical 3:1 slopes

5:1 to 6:1 surrounding

4:1 to 5:1 slope

5% to 12% reverse grade slope

55' circumference

Example of a local gentled slope/depression - with reverse grades

A person wearing a dark jacket and blue jeans is kneeling on a mound of rocks and sparse vegetation. They are holding a measuring tape against the slope of the mound. The mound is covered with small, light-colored rocks and patches of dry, brown grass. In the background, there are several trees, some with bare branches and one evergreen. The sky is overcast and grey. The overall scene is outdoors in a wooded area during a cooler season.

~20' mound, slopes range from 4:1 to 2.3:1;  
nominal 3:1

3:1 to 4:1 on upperportion

6:1 to 13:1 on lower portion

30' circumference

4.5:1 to 5:1 surrounding

Even on nominally level ground, notice the slope variability
