 2 A number of workman have been en- f  
 3 gaged for some time in getting the Harris t  
 4 dock and warehouse property which was t  
 5 purchased by Chas. I. Martin some time c  
 6 ago ready for use next spring. The in- k  
 7 terior of the warehouse has been entirel t  
 8 torn out and will be remodeled. The i  
 9 dock is to be extended out into the bay t  
 10 seventy-five feet further, and the ware- t  
 11 house will be moved out nearly this far F  
 12 and placed on a solid foundation. The r  
 13 portion of the dock next to the shore is v  
 14 being torn up it being the intention to fill s  
 15 in the whole property with refuse from c  
 16 the shingle mill, thus making the approach r  
 17 to the dock permanent. When the con- f  
 18 templated improvements have been fl  
 19 finished the property will be a valuable e

## FROM THE FOURTH WARD.

Quite a force of men are employed on Chas. I. Martin's dock making the necessary improvement. A solid pile foundation has been made for the warehouse, and Capt. John McDonald is now engaged in moving the building to its new location. The work of driving the piles is being superintended by Jack Ryan which is a guarantee that it is being hustled along at a lively rate. The clippings from the shingle mill are being dumped on the property and the shoal water will all be filled in making a solid lot of the whole place. If this city had a half dozen more business men like Mr. Martin the place would have to boom; it couldn't help itself.

Work of decorating the interior of the Norwegian Lutheran church is now under way, the artistic work being done by Messrs Christ Nelson and Christ Williams. It is expected that the church will be ready to dedicate in about three weeks.

Since the ice has become firm on Green bay, a number of our citizens have made business trips to Menominee and Marinette. With good traveling on the ice traffic between this place and the west shore will be greater than in former years.

Teweles & Brandies contemplate making extensive improvements around their dock property during the present winter. The dock will be extended on the south side, also an addition built to the warehouse. An addition is now being built to the ice house.

Wm. Hemholtz and wife, of Chicago, and Henry Hemholtz, of the same city, who were called here the latter part of last week on account of the death of their father, have returned home, the former leaving Monday morning and the latter on Thursday of last week.

The choir of the Congregational church, on the east side, will give an entertainment in the near future for the benefit of the Friends church, of this place. If the plan is carried out, no doubt the entertainment would be largely attended by people here, it being for

## SAWYER BUSINESS FIRMS.

**Teweles & Brandeis, Produce Buyers, Do a Big Business in This City. Owners of Large Warehouses and Valuable Dock Property. Olson & Forland, Dealers in Lumber and Building Material.**

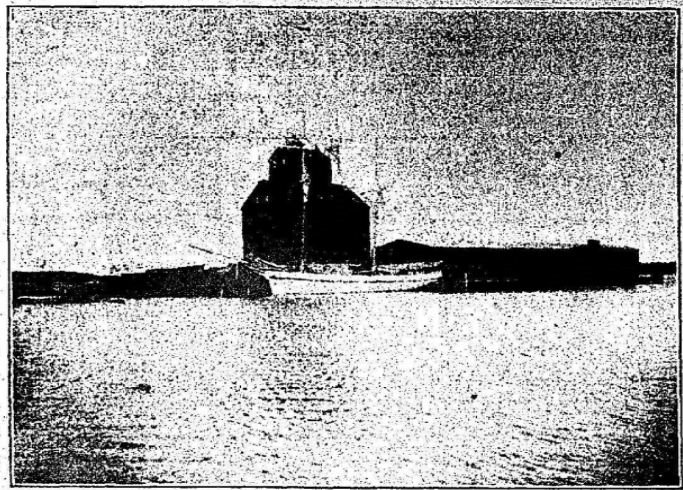

AMONG the best known business firms in Sawyer is that of Teweles & Brandeis, grain and produce buyers. Their business has brought them in contact with a large number of farmers, and during the years that they have been located in Sawyer have built up a business that speaks well for the firm. They

also conduct the same line of business on the east side of the bay, it being in charge of Arthur Teweles, while the buying in this part of the city is looked after by Isadore Brandeis.

The company's property in Sawyer consists of a large elevator, dock property and large warehouses. The elevator has a capacity of 30,000 bushels of grain and is equipped with the latest machinery, which is run by an eight horse power Fairbanks-Morse gasoline engine. The elevator is equipped with a clipper cleaner and automatic scales, which are of great value in a business of this kind. The elevator stands 90 feet high, and is located where shipments can be made from it by either rail or boat. The firm makes a specialty of handling peas and thousands of bushels are shipped south each year, they being put up in bags and transported to the southern market by boat. The majority of the wheat, rye and barley handled by the firm is shipped south in bulk by rail, the cars being run to the elevator on a side track, where they are quickly loaded. Five men are generally kept employed about the elevator, and the handling of the grain is in charge of Jeff Teweles, an experienced man in that line of business.

The firm also own the old planing mill building on their premises, which they utilize as a place to sort and pick over their peas, there being twelve girls employed in this work during several months of the year.

**ELEVATOR AND WAREHOUSES OF TEWELES & BRANDEIS.**

The dock property owned by Teweles & Brandeis is situated at the foot of Maple avenue, and very convenient for the business interests of the city. At this dock all the boat transportation companies, that run into this port, stop, and a great deal of freight received and shipped over it. The dock has a frontage of 140 feet, and extends 150 feet out from the shore, the water being deep enough to accommodate the largest craft. Two large warehouses are built here, one at the end of the dock, 36x100 feet, which is used principally by Teweles & Brandeis for the handling of their peas, and the other, 45x110 feet connecting it on the west and running along the south side of the dock, and used principally for freight brought in here by the transportation companies. The dock business is in charge of Halver Halverson.

## Sawyer News.

The Sawyer Lumber Co. are rebuilding about one hundred feet of 'Teweles & Brandeis' dock, which is used by the former firm for unloading lumber from boats. The repairs are temporary as the owners of the property are planning on filling in under the structure with stone in the near future which will make a permanent job of it.

### NEW OFFICES AND WAREHOUSES.

**Sawyer Lumber Co. Will Erect New Buildings at Once.**

The Sawyer Lumber Co. have made a new lease of the Teweles & Brandeis dock property which includes the building now being used by the Rappale Cheese Co., and as soon as plans can be formulated a large office and lumber storage building will be erected fronting on Maple Ave. The lumber company have also leased a tract of land from the railroad company north of Hembel Bros. warehouse, with a 100-foot frontage on Union St., which will give them an outlet on the two principal streets and also give much needed room for the storage of building material.

Teweles & Brandeis will extend the dock 100 feet or more toward the shore on the south side and dredge a channel alongside to a sufficient depth to permit vessels to land at any point along the water front.

When the contemplated plans are completed the Sawyer Lumber Co. will have one of the most complete and convenient lumber offices and yards to be found in the state

### Anniversary Jubilee a Success.

The jubilee given by the German Lutheran congregation of Neshewauee in Keller's grove in the town of Gardner last Sunday to commemorate the thirtieth anniversary of the founding of the church was carried out in full as announced in last week's Democrat. The day was an ideal one for outdoor meetings and about 600 attended, including representatives from the German Lutheran congregations at Sawyer, Sevastopol, Forestville and Kolberg. Rev. Bergholz, of Kewaunee, delivered the sermon in the forenoon and Rev. Misenhal, of Kolberg, gave the sermon in the afternoon. Rev. Schumann, pastor of the church, read the history of the Neshewauee church and the Sawyer choir rendered some excellent selections.

The ladies served dinner in the large barn of John Keller and all were delighted with the bountiful repast.

The collections taken were very liberal and Rev. Schumann and his congregation wish to express their sincere thanks to all who aided in making the jubilee a success.

### Became June Brides.

Miss Sophia Brunning, of Neshewauee, and Jules Rubin, of Brussels, were united in marriage at the German Lutheran church at 2 o'clock Tuesday afternoon.

On Wednesday afternoon at 4 o'clock Miss Rose Birmingham, of Sevastopol, and Lawrence Wickman, of Forestville, were married at the German Lutheran church.

Rev. Schumann performed both marriage ceremonies.

### SAWYER NEWS IN BRIEF.

John Renier was here a day or two this week from Marinette. School is out and now for the pleasures of the summer vacation. Mrs. Klom is still very ill and has been confined to her bed for three weeks.

The launch Ruth J., Capt. F. Jacobs, is open for pleasure parties evenings and Sundays. C. A. Goodana, of Marinette, was here Tuesday on business connected with the saw.

1912 Jun 14  
The court has confirmed the sale of the Lyon Bros. elevator and the deed has been delivered to the original owners.

Joe. Hoidel had sufficiently improved by Monday so as to be able to be down to the store a short time. He has had a hard pull from rheumatism for a month or more.

Mrs. Frank Rayman died at Green Bay on Wednesday after a lingering sickness due to tuberculosis. She leaves three children to mourn her death.

Miss Christine Jochum, a sister to Rev. J. L. Jochum, arrived here last Friday to spend a month. Miss Jochum is a Deaconess in the German M. E. churches in Chicago.

The work of filling in the roadway to connect the new bridge with Union street, has been completed and the public have been using the new bridge since last Saturday.

Frank Huber has completed a large refrigerator for the Idlewild Inn summer hotel. Frank is as expert at this work, he having built several large coolers for local parties.

Nelson & Hawkey's merry-go-round was moved from Sawyer to Forestville the fore part of this week and the outfit will not be brought back to this city until next fall.

Remember the food sale at Woerfel's drug store tomorrow afternoon from 2 to 6, under the auspices of the Woman's Club. The proceeds will be used for a playground and park for Sawyer.

John Johannek and family left for Los Angeles, Cal., on Wednesday morning after spending several days visiting among friends in Sawyer. They have the best wishes of a large circle of friends in Sawyer and vicinity.

Fred Bushman and his assistants completed the moving of Chas. Heald's fish house on Wednesday. They found it a hard task as the bottom is quite soft on the old saw-mill dock. However, when it is filled in it will make a fine location for the fisherman.

Joe. Alberts has made application for a saloon license for the Rayman Hotel property and will open the place on July 1st. John Lavolette has applied for a license for the hotel now run by Mr. Alberts. This will give one more saloon for Sawyer as all the other licenses will be renewed.

The Democrat is in receipt of a post card from J. J. Neville stating that he and his family had arrived at Blackstone, Virginia, after a very pleasant journey of two days and two nights. That part of the trip which took them thru the mountains of West Virginia was very picturesque and thoroughly enjoyed.

The clerks at Washburn's store

gave Miss Anna Tesar a surprise spread one evening last week, it being in the nature of a farewell as Miss Tesar left Wednesday for an extended visit in Los Angeles, Cal., in company with John Johannek and family. After the bountiful supper the young folks enjoyed a launch ride with Frank Jacob.

W. G. Wormley, of Chicago, was here again Saturday and made final arrangements for the location of the building to be used for the sailing station for the Libby, McNeill & Libby Pickle Co. The site is on the railroad company's land, just west of Lyon's elevator and fronting on Union street. It will be a frame structure, 40x82, resting on concrete posts.

The Green Stone & Quarrying Co. have secured the contract to furnish stone for the new harbor work at Manistique, Mich., and the usual number of men will be put to work in a week or so to get out the stone. The company have a supply on hand for immediate shipment and the boats are being put in readiness for the season's business.

H. R. Silverwood has received numerous inquiries from outside cities both in this state and elsewhere asking for information about the plan adopted by the Sawyer Community Development Club in advertising the town and getting people interested in it. The plan is being introduced in many cities throughout the country and has been the means of promoting a feeling of good-fellowship between the merchants and their customers in a marked degree.

Last Saturday evening the Sawyer Community Development Club sent up the prize balloons left over from the jubilee celebration a week previous and as the weather conditions were perfect the paper bags were carried a long distance. The wind was very light and from the south and all the balloons were carried across the bay into Sevastopol. Those who captured the prizes were: John Hensartner and a neighboring friend, suit of Collegian clothes. The boys divided the prize and added enough money so that each got a new suit. Ed E. Lindner's share, David Tharper, \$5 credit slip, given by the Sawyer Lumber Co. The washing machine given by C. Wolf & Co. went to a Mr. Jacob.

The C. D. C. ball team defeated the Door Co. Land Co. team on the home grounds Sunday by a score of 13 to 9. The local boys had the victors at their mercy for the first half of the game with the score standing 5 to 1, but the ball became lost in the grass when the visitors had the bases full which gave them four scores in a bunch. Their other four runs were scattered through the last half of the game. Langemak made a clean hit over the elevator and got a home run but it only counted one as there was no one on the bases at the time. The boys will have the grass cut before another game so that the out-field will be in better condition. The C. D. C.'s will play Hensenberg's Stars at the east side ball park on Sunday.

Work was commenced this week driving piles for the extension of the Teweles & Brandels dock, which has been leased to the Sawyer Lumber Co. A first class dock will be continued along the south side of the property where the small boat houses now stand at the foot of the street. A dredge will be engaged to deepen the channel so that boats of good size will be able to enter. The Green Co. has the contract to drive the piles. The driver is also putting down the piles for the extension to the grist mill dock.

borhood of a mile of line. The peti-  
tioners have been assured that if there  
is a possibility of the patronage being  
sufficient to warrant the investment  
the line will be built.

Teweles & Brandeis are having their  
dock given its annual overhauling and  
repairs, the work being in the hands of  
Frank Huber and John Rank. This  
work can only be done to advantage in  
the winter, when the ice will permit the  
carpenters getting underneath the struc-  
ture for the purpose of renewing timbers  
or piles that may need it. The ware-  
house also came in for its share, it being  
found necessary to jack up the struc-  
ture at one end where the enormous  
weight that is sometimes placed in it  
had caused a sag. One thing the local  
commission firm does is to keep their  
buildings and property in the best pos-  
sible condition at all times.

Mrs. Wm. Mulvihill and daughter Eda  
of Laramie, Col., were the guests of  
James Hall and family for a couple of  
days within the week, while in this vi-  
cinity visiting relatives. They were ac-  
companied by Mrs. Jus. McLachlin of  
Sevastopol. The Mulvihill family have  
been living in the west for several years  
past, where they have a rented ranch  
and are doing very nicely. All things

The freed given by some of our merchants on Thursday afternoons, have been discontinued for the present.

Sheriff Ben Miller on Monday delivered Emma Tiedemannson of Forestville at the Home of the Feeble Minded at Chippewa Falls.

The Washburn Lumber Co. is rebuilding a large portion of its dock, and Teweles & Brandeis have the dock in front of their elevator ready to be filled in with stone.

A Kalmbach has been shipping large quantities of fresh fish during the past two weeks and several men are kept busy cleaning, smoking and packing smoked fish.

Harry Dana had the tip of the second finger on his right hand taken off when his hand became caught in the gearing of an auto around which he was working at the Dana garage.

Students of the high school will hold a "Mock Trial" at the gym on Thursday next, which gives promise of being very interesting and amusing. A small admission fee will be charged.

LOCAL NEWS

Henry Pusker has become a candidate for alderman in the second ward. The first heavy rain storm of the year passed over this section early Wednesday morning. Mosler's Garage has sold Monmouth trucks to Olson & Putman agents at the Sturgeon Bay Brewery. The Woman's Foreign Missionary Society will meet with Mrs. Wm. B. Cheesman on Wednesday, April first. The Democrat is issued in twelve page form this week to accommodate an excess of advertising and other matter. The Woman's Missionary Society of the Congregational church will meet with Mrs. E. Reynolds, Tuesday afternoon, March 31. The free market picture shows given by some of our merchants on Thursday afternoons, have been discontinued for the present. Sheriff Ben Miller on Monday delivered Emma Tiedemannson of Fordville at the Home of the People—Minkota—Chippewa—Falls. The Washburn Lumber Co. is rebuilding a large portion of its dock, and Teweles & Brandels have the dock in front of their elevator ready to be filled in with stone. A Kalmbach case was shipping large quantities of fresh fish during the past two weeks and several men are kept busy cleaning, smoking and packing smoked fish. Harry Dana had the tip of the second finger on his right hand taken off when his hand became caught in the gearing of an auto around which he was working at the Dana garage. Students of the high school will hold "Mock Trial" at the gym on Thursday next, which gives promise of being very interesting and amusing. A small admission fee will be charged. The regular monthly business meeting of the Ladies Aid of the M. E. church will be held with Mrs. Mc Simon on Thursday afternoon, April 2nd, at 2:30. Refreshments served, and a large attendance is expected. The county camp meeting of the Woodmen will be held at the court house in this city next Wednesday, April 1st. At this meeting a delegate will be elected to attend the state camp meeting at Fond Du Lac, in May. The Simon Lumber Co. report the sale of 120 acres to Jacksonport from Nick Meyer to Wm. Beard of Green Bay, including all personal property. Also a heavy outfit in Sawyer from Frank Dreyer to Con. Mikel of Neauveau. Henry Washburn on Tuesday moved onto the small farm owned by his brother Charles in the extreme eastern part of the city. He will continue to work in the planing mill and will have to travel from his work in his motor boat. A vault is being constructed at the rear of the Cyclopedia building for the new bank, which is to occupy the building. Work on the interior is being pushed rapidly as possible and it is stated that the new institution will be ready for business in a few weeks more. The car load of western horses brought here last week from Montana met with a good sale. There were 28 head and they were all disposed of, sales having been held in this city, and at Beg Harbor and Bailey Harbor. They brought an average price of about \$66. J. A. Johns has purchased a fish boat from A. Kalmbach and is installing an eight horse power engine in it. The boat will be used to row a pound boat in the fishing grounds in the lake and bay, and its cabin will afford shelter during stormy weather. Dr. Geo. Anderson, son of Mr. and Mrs. Alex. Anderson of this city, who has been ill the past year or more, is still confined to his bed in Milwaukee. However, he is reported to be feeling quite well, and hopes for his recovery are entertained. According to a chart compiled by the Wisconsin Automobile, Door county has 178 automobiles, which is 49 less than our neighbor, Kewaunee county. According to reports of local auto agents, the

number of autos in Door county will be majorly increased this season. Spring was ushered in officially on Saturday, March 21. The weather, however, was more in keeping with fall than spring, and on the following day there was quite a heavy fall of snow, which covered the ground several inches deep. This was soon dissipated when the sun came out. The Washburn Bros. have just installed a handsome 14-foot marble soda counter with all the latest sanitary improvements in their ice cream parlor, and it gets off the other beautiful fixtures in fine style. The boys have one of the nicest ice cream parlors in this state and are deserving of the good patronage they are receiving from the public. Emil Nelson of Ellison Bay was here yesterday with his new fish boat, formerly owned by Capt. Sables, who lives at the canal. Mr. Nelson has been operating out of Rowley Bay and brought in a load of fish for A. Kalmbach. This boat will be stationed at the Avon boat wharf. The boat is now full of fish and is one of the largest gasoline fish boats used in this county. The country boat did not come as far north as Sturgeon Bay last Monday, as had been expected. E. J. Hamage, the local agent, states that the steamer Georgia will leave Chicago for Sturgeon Bay on Saturday, April 4th and will arrive here the following Monday. Mr. Hamage will open the dock warehouse and office next Monday morning. Dale Steer will be employed here this season as assistant dock agent. Thus, Isabelle has purchased the gasoline launch which was owned by Carl Drentzer, the boat having been built a few years ago by the late T. H. Smith. Capt. Isabelle intends to take the craft to Hog Island, near the Straits, where he will use it in running to nearby places. The captain expects to reach his old home on Hog Island in the future, having taken up a government homestead there. But two banks in the city, the Merchants Exchange and Bank of Door, plan to become depositary for the city's funds. The finance committee considered the rate of interest offered too low, it being a fraction above two per cent, and rejected the bids. The rate was considerably lower than that offered last year. However, in the present instance the banks were asked to furnish a surety bond for \$50,000 over to the city. If you want to be loyal to your home town, don't go to nearby cities to do your shopping. Sturgeon Bay merchants deserve your patronage, not alone on account of loyalty to your town, but because they are not selling the latest fashions on the market and as low in price as similar goods can be bought for elsewhere. Read the ads. in this issue of The Democrat. They are ads. of strictly local merchants, who are here the year round, business men who form an integral part of our community. J. M. Prentice, the "Quaker Doctor," seems to be unable to find a field, which he practices without being molested by the law. He had had no trouble in the state until he reached Door county several weeks ago, when he was arrested for practicing medicine without a license. Leaving here he got into a similar difficulty at Kewaunee, and during the present week he was requested to leave Milwaukee after spending a night in the county jail. He is now said to be prosecuting his work in Kenosha.

Last Friday evening was the 50th anniversary of the organization of Peninsula Lodge No. 320, I. O. O. F., and there was a large attendance at the regular meeting of the lodge in commemoration of the event. Four of the eight original charter members were present, they being B. S. Minor, Alex. Laurin, D. S. Rannge and C. E. Nelson. Mr. Minor was the first Noble Grand of the lodge, and at Friday evening's meeting gave a very interesting address on its early history. The lodge I. O. O. F. is one of the strongest fraternal organizations in the city, having a membership of 140. No Fear of Father Dying Young. When little Doris slipped up to her father's knee, it was quite obvious that some deep problem was troubling her mind. Presently she unburdened herself of the momentous question, "Papa, she asked, 'was it a very wise person who said The good die young?'" "Yes," replied her father. "I suppose he must have been very, very wise."

"Well," said the child, after meditating for some time on the import of his answer. "I'm not really so much surprised about you; but mamma—no, I don't see how mamma managed to get growed up!" ALICE PERFECT. "And you say you are innocent of the charge of stealing a rooster from Mr. Jones?" asked an Arkansas judge of a meek-looking prisoner. "Yes, sir, and I can prove it." "How can you prove it?" "I can prove that I didn't steal Mr. Jones' rooster, judge, because I stole two hens from Mr. Graston the same night, and Jones lives five miles from Graston's."

And James West. The teacher was trying to break James of saying, "I have went," but the lack seemed hopeless. So, as a last resort, she had him stay after school and write twenty times on the blackboard, "I have gone home." While the child was occupied the teacher left the room, and was still absent when James finished the task. And to acquaint her with the fact he wrote: "Dear Teach—I have wrote what you told me, and have went home." National Food Magazine.

Two freshmen were among a class that had been drilled in marching tactics. One was new at the business, and turning to his companion asked him the meaning of the command "Halt!" "Why," said Mike, "when he says 'Halt,' you just bring the foot that's on the ground to the side as if the foot that's in the air, ain't marchin' now."

Bridget's Scheme. "Why, Bridget, you surely don't consider those windows washed?" said the lady of the house, reproachfully. POLITICAL ADVERTISEMENT The following is authorized to be published by John W. Reynolds, Green Bay, Wis., for which it bears no responsibility.

VOTE FOR John W. Reynolds Republican Candidate for CONGRESS Ninth District. Primary Election, Tuesday, Sept. 1

John Reynolds was born on a farm near the village of Jacksonport, Door County. He finished the common schools there; taught school for three years in northern Wisconsin; attended the university of Michigan for three years at Ann Arbor, taking a special course; studied law at Madison, Wisconsin, and was admitted to the bar. Each year for several months he has assisted in the dental parlors of Dr. A. H. Chandler. When the latter went down to the office Friday morning he found his assistant had not arrived, and what was stranger still, his tools were not in their accustomed place. The doctor telephoned to the hotel and found that the general young man had packed his belongings and taken the early morning train for other parts. Dr. O'Day was a very competent young man, and the reason he gave the hotel man for his departure was that he did not want to face his employer, and that he was going to quit. It rather put Dr. Chandler in a bad position for several days, but his many patrons, understanding the situation, graciously and generously accepted the situation philosophically.

WEST SIDE

Mr. and Mrs. Jess Hendricks, who spent a couple of weeks at Daggett, Mich., visiting with relatives, returned home within the week.
Business is experiencing a mid-summer slump at the present time, the farming community being kept at home most of the time by the excellent growing weather.

Twelve S. Brandeis will fill in their desks promptly on the morning extending it to the street line. This will necessitate the removal of the bathhouse at the foot of Maple avenue. The firm owns the property on which the bathhouse stands and feels that it can make use of it by improving their property!

Raymond Fremont returned to his duties in Chicago on Sunday after a pleasant vacation of about ten days among the scenes of his childhood. His family will remain until September 1st. Raymond is employed in the meat market of E. Hagen and while trimming meat with a sharp knife with which he is expert he was cut on the arm with the result that the flesh was cut to the bone over an area of an inch or more.

Charles Armstrong, Jr., went to Milwaukee Saturday to celebrate a special anniversary of the year with which he has been troubled for some time past. His father, Alderman Charles Armstrong, was called to the Green Bay Monday, it having been decided that an operation was necessary. This was performed, but it is too early to tell what the outcome would be.

Dr. Hugh Russell and wife and George Robinson and wife and two children, returned to their homes in Milwaukee on Tuesday after spending a week in this city and vicinity. They made the trip in the Dr's. auto and during their stay here made sojourn into the northern part of the county, being accompanied in the Dr's. auto and during their son of our esteemed townman, E. L. Rosenfeld.

The fine gasoline yacht Gesina, owned by banker John Schuetz of Manitowish, returned to her berth on Green Bay on Monday. Her owner, John Schuetz, his brother August of Manitowish, his stepdaughter, Mrs. Rolt, Walk-er of Marinette, Mich., and J. S. Anderson and daughter of Manitowish were on board. Although past seventy years of age, Mr. Schuetz continues to greatly enjoy his summer trips on these waters.

Dr. W. D. O'Day has gone. He has for the past several months been assisting in the dental parlors of Dr. A. H. Chandler. When the latter went down to the office Friday morning he found his assistant had not arrived, and what was stranger still, his tools were not in their accustomed place.

Alfred Samuelson of Daggett, Mich., spent a couple of days here within the week, during which he was the guest of his brother Albert and family. Alfred had been on a visit to his brother Fred at Ludington, he being a bricklayer at that port, and while there was carrying out the masonry for the freight carrying vessels that are idle at the docks, some

C. E. RAUGHT Republican Candidate for Congress.

TO THE VOTERS OF THE NINTH CONGRESSIONAL DISTRICT OF THE STATE OF WISCONSIN.

Placing the utmost confidence and a firm reliance in the sincerity of expression shown by many of the leading citizens of this district—men well known and influential in commercial, industrial and agricultural life as well as many prominent among the laboring class, I hereby announce my acceptance of the call to enter the field as a candidate for the Republican Congressional nomination in the Ninth District, at the primary election in September, and will endeavor in every way to prove worthy of the confidence reposed.

In making this announcement permit me to pause, long enough to express the deepest and most heartfelt thanks for the kindly mention that has been bestowed, for the earnest and apparent sincerity of the call extended, and for the honor conferred.

Let it be understood, without stint or feather, that I stand as a plain Republican, minus any defining prefix, truly believing in the principles of sound Republicanism. For twenty-five years and more I have strenuously upheld, fought for, written in defense of, and worked for the success of the Republican party and its candidates, for I sincerely believe the Republican party stands prominently in the history of this great Nation as the party of construction and achievement, the party of success and prosperity; the party under whose administration the laborer, the agriculturist, the manufacturer and the business man, individually and collectively, have enjoyed the greatest prosperity, earned the highest wage, received the most for agricultural products and the output of manufactures, and with that has been combined the best living for all and the most comforts of life.

Believing in the sound principles of Republicanism I endorse and stand for a protective tariff. Not a tariff that merely provides for the difference in the cost of production of raw materials, but a tariff measuring the difference in the cost of American labor against that of foreign countries, but for a tariff sufficiently high to warrant and protect capital being invested in new industries, and to encourage the enlargement of those already existing. Likewise a tariff that protects the American farmer from the imports of Canada or other foreign countries.

All questions of national importance would receive careful study should I be placed in a position where the time and means were afforded, and my action thereon would be in accordance with the best interests of my own district. It would afford me much satisfaction to lend my aid and support to the return of a tariff on paper products, if given the opportunity, for the future welfare of the paper industries of this district is now more or less jeopardized through the present free-duty importation of paper products from Canada and other foreign countries, which if allowed to continue is bound to seriously affect not only invested capital in these plants, but the vast army of men therein employed.

As to state issues, the factional controversies within the state, the value of our goods, and an indifferent law, the worth of the many commissions, the reasons assigned for high taxes, etcetera, do not consider this the time or place to refer to these debatable questions, for they are not national issues, and are not applicable to a national candidate, and any differences of opinion on the part of the republican voters on these questions ought not to be reflected on a Congressional candidate.

Disregarding momentarily from the political platform permit me to announce that as a trade union member, I believe in and uphold proper and conservative organization of labor. I conscientiously believe much good has come to the working class through systematic organization, and likewise believe that benefits accrue to those employing organized skilled workmen. As capital and labor must necessarily go hand in hand, unless each without the other, I concede to both the right to organize for mutual protection and for the purpose of securing satisfactory understandings as in their equitable rights.

For the purpose of introducing to the uninformed and with a feeling entirely void of self praise, allow me to say I have had experience in political life. Have been privileged to serve ten years as alderman in my home city, twenty-two years as postmaster, have participated in many Republican county, state and congressional conventions of the past, am present an serving as chairman of the Republican organization of Outagamie County, and as a member of the Illinois Commission of the City of Kaukauna.

It would afford me great pleasure to meet from friends in all parts of the district, whether thru political acquaintance, labor union affiliation or fraternal society association, and to have them extend a helping hand of co-operation to the success of my candidacy, and the success of the Republican party.

I cannot hope to meet all of the electors in the district between now and September, but will endeavor to grasp the hand of at least a portion and hope that all may investigate fully my ability to serve the people.

Yours respectfully, CHARLES E. RAUGHT

When People Stop Eating We'll Quit Selling Meats.....

But until then just bear in mind that we are handing out some tender and juicy steaks these summer days. When you eat a mouthful you'll want the whole center.
